

FUEL TRAILERS

Efficient, Safe and Compliant Mobile Fuelling Solutions

SELF-BUNDED TRAILERS

FUEL TRAILERS

Efficient, Safe, and Compliant Mobile Fuelling Solutions

ORCA Self-bunded Fuel Trailers are engineered for demanding environments on the African continent. As a leader in engineered fuel storage, we provide smart, scalable turnkey solutions that move with your business.

Engineered Precision & Industrial Strength

Our trailers are not just transport units; they are high-quality, compliant infrastructure components designed to mitigate risk and ensure operational uptime.

Dual-Layer Containment: Featuring a robust double-walled tank design fabricated to UL Standards for maximum safety and environmental protection.

Rugged Durability: Built to operate in extremely rugged terrain and remote locations, specifically for the Mining, Construction, and Agricultural sectors.

Plug-and-Play Efficiency: Integrated dispensing equipment provides a cost-effective, ready-to-use solution for on-site refuelling.

TECHNICAL CAPABILITIES

- 💧 **Self-Bunded Design:** Eliminates the need for external bunding; 110% containment.
- 💧 **UL Fabricated:** International standard compliance for safety and durability.
- 💧 **Mobile Integration:** Reliable fuel access for remote logistics and site work.
- 💧 **Turnkey Systems:** Includes pump packages, filtration, and monitoring options.

Why choose Orca?

As a Strategic Fuel Management Solutions Provider, we empower your industry with precision and reliability.

- 💧 **Security:** Mitigate fuel theft and inventory inaccuracy through superior engineering.
- 💧 **Compliance:** Each unit reflects our commitment to ISO 9001 standards, ensuring high-level professional trust.
- 💧 **Local Expertise:** We are a proudly South African, women-owned business with extensive experience across African regions.

"More than suppliers, we provide full turnkey fuel solutions."
